STRETCH FALL GRAZING

By R. H. Trice, Rural Representative, Vepco

Pastures in this area are in bad shape because of the dry weather and many farmers are faced with finding additional temporary grazing or else feeding hay and grain which may be hard to replace later.

An electric fence is a simple means of stretching pasture, since much good grazing is left in fields from which corn, beans, peanuts, and hay have been harvested. One or two strands of wire strung on small stakes makes an effective fence, and can be put up and taken down with very little labor.

Electric fence controllers, costing from $15 to $50, may be operated by battery or by 120 volt electric service. Dry cell batteries costing from $3 to $5 will operate a fence controller for three or four months, while 120 volt electricity will cost only five or six cents per month.

No attempt should be made to control an electric fence with a substitute or homemade device.

HENS DON'T LIE

Here are the Facts:

7,500 MORE EGGS FROM 250 UNCULLED HENS FED K-BLENDED KASCO EGG PRODUCER!

Flocks fed the New Kasco Egg Producer averaged 240.6 eggs compared to 219.5 eggs for birds fed another popular, high quality, laying mash. That's thirty more eggs per bird on Kasco, or 7,500 more eggs from 250 layers—amazing but absolutely true!

These results were from many pens of *average*, uncalled hens. No pens were selected to boost these averages. All birds were treated the same except for laying mash. Kasco fed birds actually produced eggs on one-half pound less feed per dozen.

What all these figures add up to is: $2.05 more profit from every 100 pounds of Kasco Egg Producer fed. It will pay you to feed Kasco, too.

The great oak tree at the home of Mrs. Guy Smith which gave the farm its name of "Mammoth Oak," was a victim of Hurricane Hazel. It's huge trunk, shattered in two pieces and finally, as the storm progressed, broke off, several feet from the ground. Mopping up operations have been going on since Friday. Two power saws working steadily for hours made hardly a dent in the cleaning up process. We regret the passing of a landmark but are happy that there were no human casualties.

Other losses in the community were two barns of tobacco, one belonging to Jim Cardwell, which burnt at the height of the storm and another owned by Bob McQueen, Charles Torrence and Russell Conner, which blew down and was almost a total loss.

Mr. and Mrs. T. M. Ferguson, of Montvale spent Thursday with Mr. and Mrs. W. H. Conner. Mrs. Conner returned with them to Montvale, where she spent Thursday night and over the week-end visited her brother-in-law and sister, Mr. and Mrs. L. M. Spradlin, of Vinton, Rt. 1.

Women may well take special safety measures against two kinds of home accidents — falls and burns — farm safety advisors at V. P. I. say. Reason: Women are some of the chief sufferers from such accidents. Statistics recently reported by one large life insurance company show that more than 22,000 women in this country over the age of 15 years die each year from injuries caused by accidents.

Though traffic accidents are the leading causes of the fatalities, falls take second place and burns or fires are third.

Though millions of women today are employed outside the home, relatively few are killed in industrial accidents. However, a fourth of the fatal accidents to women — and women under the age of 65 years—occur in or near the home. This high toll of fatalities is especially surprising today when modern equipment and appliances have done so much to make homes safe.

Literally to save their lives, women apparently need to understand and become interested in ways to prevent falls, burns and fires. Good lighting for all steps and stairs, non-skid rugs, and finish for floors, handrail for steps and stairs and handholds for bathtubs are all important aids against falls. Any sort of clutter on steps or floors, such as children's toys, may be a trip hazard. Celler stairs are the site of falls because they are dark or kept in poor repair.

Most women spend enough time cooking to learn simple precautions against burns, such as turning the handles of saucepans toward the back of the stove so the pan won't be knocked off or hot food or water spilled. But, many women know too little about home fire prevention, or how to meet a fire emergency if it comes.

Carver-Price School News

Hello Readers! Hurricane Hazel made us think we were coastal residents. We aren't accustomed to such severe winds. How fortunate we were that little damage was done locally.

We were glad to have Mrs. Pauline Craig and Dr. Keesee visit us on Tuesday. It was interesting to learn that Mrs. Craig's father was once owner and publisher of the Times-Virginian.

The N. H. A. held its first meeting of the school year on Monday. Officers elected were:

President, Roberta Lewis
Vice-President, Effie McCoy
Secretary, Celestine Chambers.
Asst. Sec., Shirley Pennix
Treasurer, Anne Megginson.
Parliamentarian, Laura Fleshman
Reporter, Gloria Jenkins.

The retiring president, Ella Chambers, gave her best wishes for the success of the organization. Mrs. V. P. Elliott is sponsor of this organization.

4-H boys carrying hog projects under the supervision of County Agent G. L. James sold their animals at the Farmville Stock Market on Monday, October 18. Seven counties participated in this first sale of 4-H hogs. Charles Jones, a ninth grader from Hixburg Community won Grand Championship on a pen of three hogs and Roosevelt Forbes, a tenth grader, won Reserve Championship for a pen of three hogs. Three 4-H boys: Hershel Forbes, Roosevelt Forbes, and Charles Jones now have herds. This was a hog show and sale with plans for it being made in early spring.

Charles O. Jeffers has received another recent honor at Virginia State College. He and three other high ranking honor students were honored by the Student Council at Virginia State last Friday on "Honors Day." Parents of these students shared in the honors. He is President of the Alpha Kappa Mu Honor Society, a member of the Student Council and President of the Agronomy Society. We are proud of his achievements and know that only through hard work can such honors come.

We are looking forward to the big social on Saturday evening, October 23, sponsored by the tenth grade. This promises to be one of the biggest affairs of the season. Music will be furnished by the Bernie Douglas Combo of Lynchburg. Come out and enjoy the evening.

The Juniors are planning an activity for Saturday evening, October 30—a Hallowe'en Frolic. From what we hear it is to be great fun.

All students interested in becoming cheerleaders this year met in the gym Monday, under the supervision of Mrs. H. P. James. From the sounds we heard, we are looking for some excellent cheering. Those out were: Pearl Jones, Florine Patterson, Georgia Scruggs, Viola Johnson, Sarah Lipford, Sarah Harvey, Rosa Jones, and Helen Brown.

We leave you with this thought: "Experience may be the best teacher, but she seldom finds red apples on her desk."
